Health & Safety Policy

St Peter's School is a place where every person has the right to be themselves and to be included in a safe and happy environment. Everyone at our school is equal and will be treated with respect.

Together, we will realise the potential God has given us.

The responsibility of Health & Safety is a shared and mutual responsibility between the School Governors and staff at all levels.

The Governors will, so far as is reasonably practicable, safeguard the physical and mental well-being of all staff, pupils and visitors.

This will entail:

- the provision and maintenance of healthy and safe systems of work and working conditions;
- the provision of appropriate information, instruction, training and supervision in safe working measures and procedures;
- making provisions for first aid;
- taking account of the special needs of those with disabilities.

Staff should respond to the above lead by:

- taking reasonable care for the health & safety of themselves, colleagues, pupils and others;
- observing safety rules where applicable to them;
- co-operating with management in measures designed to promote health & safety at work.

This policy statement will be circulated to all members of staff, teaching and non-teaching, and be reviewed every three years.

Revised in December 2016

Next review: Dec 2019
